

## Clear Vision Guarantee

We are so confident in our technology, experience of our surgeons, and vision outcomes, that we back up the results of our vision correction procedures with a full money back guarantee. If you have not achieved 20/25 vision during the 12 month post-operative period, we will refund your procedure fee.

### Clear Vision Guarantee Terms

Must have complied with postoperative medication instructions/regimen and required follow-up examinations and treatment recommendations

- The guarantee is that you will achieve 20/25 or better vision with both eyes open at any time during your 12 month postoperative period
- Program does not guarantee 20/25 or better vision the rest of the patient's life
- Patient must make an honest effort when vision is tested
- Refund issued upon your execution of an appropriate release provided by LEI

## Lifetime Vision Security

We also provide the lifetime security of knowing that if your vision ever falls below 20/40 (20/50 or worse in distance corrected eye), we will provide an enhancement at no additional charge.

### Lifetime Vision Security Terms

- Requires annual eye examination at affiliated eye doctor's office
- Vision must be below 20/40 to receive enhancement
- Vision deterioration cannot be due to trauma, disease or presbyopia, and deemed by surgeon to be correctable with laser enhancement
- Enhancements must be medically safe and advisable
- Must have enough corneal tissue available to safely perform enhancements
- Patient must make an honest effort when vision is tested

## Eligibility Requirements

### *Applies to both Clear Vision Guarantee and Lifetime Vision Security*

- Guarantee applies to ReLEX SmILE, LASIK with Ziess VisuMAX and WaveLight® EX400 lasers only, and PRK nearsighted Wavefront-optimized treatments with WaveLight® EX400 laser only, and performed at Logan Eye Institute
- Guarantee applies to patients who have not had previous refractive surgery, including LASIK, PRK, RK, Cornea Inlays, or Cataract Surgery
- Guarantee applies to myopic (nearsighted) treatments for distance vision. Hyperopic (farsighted) and monovision treatments are excluded
- Prescription must be -6.00 diopters or less of myopia and -3.00 diopters or less of astigmatism.
- Vision must be correctable to 20/20 or better preoperatively

I acknowledge and agree to the above requirements and terms.
